

My kids are very intrested in the programing of K-LOVE 90.7 in the mpl's market. I find that the kids that listen to this staion are not the kids stading on the corner looking for trouble. I, along with many parents find it refreshing that there is a station that we don't have to be concern about the content of the programing. I feel that it is in the best intrest of the local community to have this station for our kids to listen to.

Sincerly,
Steve Chase
